

Press Release

Method Park contributes to new version of Automotive SPICE®

Method Park was responsible for intense reviews of the new Automotive SPICE® version and will inform about changes and specific consequences for development projects within the automotive industry during a series of presentations, webinars and courses.

Erlangen, 23rd September 2015 – The new version of Automotive SPICE® 3.0 was released in July 2015. Method Park was responsible for intense reviews of this new version and is now able to demonstrate and explain the new features of Automotive SPICE® 3.0 as well as specific consequences for software and system development projects within the automotive industry.

Method Park will host the “Talk in the Park” series of free presentations at its three locations in Munich, Stuttgart and Erlangen in October to discuss the question “Automotive SPICE® 3.0: What remains different?” Please find the dates and addresses on the Method Park website www.methodpark.de/talk-im-park.

Method Park will offer update training for Automotive SPICE® 3.0 and carries out assessments for the new version.

All changes are part of the Automotive SPICE® Pocket Guide and the Automotive SPICE® App published by Method Park and available for free on iTunes and Google Playstore.

Additionally, Method Park will host webinars about Automotive SPICE® on a regular basis. Please find the dates on our website www.methodpark.de/events.

About Method Park

For many years Method Park has successfully offered consulting in questions of software for safety-critical systems in the automotive industry and in the medical technology area, for which the company develops its own software solutions. Method Park brings extensive know-how to fields with high and extremely high safety requirements. With this knowledge Method Park offers its customers a variety of solutions from a single source that contribute to the success of each company. Method Park is the competent partner for consulting, coaching, training, engineering services and products for all questions of software development processes. The "Stages" Web-based process management portal developed by Method Park supports users with the practical implementation of development processes. Stages ensures the realization of predefined quality standards and process models and can be integrated in all common development environments. Furthermore, Stages enables the global distribution of development tasks beyond corporate boundaries. Founded in Erlangen in 2001, Method Park employs around 125 persons at sites in Erlangen, Munich and Stuttgart, as well as in Detroit and Miami in the USA.
